How many years have you been a Roseville resident?
2 in March

Commission preference
Public Works, Environment & Transportation

Commission preference
Field not completed.

Why do you want to serve on this Commission?
I have been searching for a way to get more involved in the community I am a part of.

What is your view of the role of this Commission?
The commission reviews and discusses public works, environmental, and transportation plans/matters. The commission then advises city leadership on decisions involving such matters.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?
My skills would mainly be beneficial to the Environmental portion of this commission. I have worked in the environmental sector since 2016. I first started in environmental consulting, mostly working on contamination management and mitigation. I currently work at the Minnesota Geological Survey where I help manage the County Well Index and work on hydrogeology projects. My experiences in the private and public sector would bring a unique perspective to potential future environmental issues that Roseville may encounter.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.
Field not completed.

Civic and Volunteer Activities
I volunteer through my work. I attend outreach events and teach groups of all ages about Minnesota Geology.

Work Experience
Antea Group (Staff Geologist) 2016 - 2018
Minnesota Geological Survey 2018 - 2020

Education

M.S. Earth and Climate Science - University of Maine

B.A. Geology - University of Minnesota Morris

B.A. Environmental Science - University of Minnesota Morris

The City's commissions review specific areas of interest and provide advice to the city council. Please describe why you want to serve on the commission(s) you listed.

I have a thirst for inspiring, leading, and driving change. I believe I can use my skills as an adept listener and effective communicator to influence decisions that positively represent the residents of Roseville, making decisions that will lead to a more sustainable, community driven environment. I'm a young engineer with a passion for serving and I think my expertise in the field of engineering can be leveraged to impact the public

works commission. I have a a rich educational background driven by my desire to be knowledgeable and to make informed decisions. With my experience in civil engineering and drive to serve the needs of the community, navigating public works decisions is certainly in my wheelhouse.

As a second commission preference, I've chosen to select the planning commission. I believe I have a multitude of overlapping qualifications that would apply to the planning and administration of policy in Roseville.

Please describe any activities, specific skills or experiences you have that you feel would be beneficial to serving on the advisory commission(s) for which you are applying.

I am an engineer working at a leading firm in the Twin Cities; I believe I can use my education, problem solving skills and passion for serving to drive positive change in the City of Roseville.

I am a problem solver, both in profession and personality. I tend to view problems holistically, wanting to observe all sides of the equation before solving. During high school, I was promoted to shift lead at a local Starbucks. While completing my undergrad degrees in applied mathematics and civil engineering at the University of Northwestern- Saint Paul and the University of Minnesota, respectively, I continued to work part-time as a shift lead at the Starbucks in Roseville. I transitioned career paths from coffee to structural engineering prior to my senior year at the University of Minnesota, with an internship at a materials testing and engineering firm that led to a full-time position. I have completed coursework essential to all areas of civil engineering, including water treatment, traffic engineering, material science, environmental engineering, and structural engineering.

While completing my Masters Degree in civil engineering, I worked full-time at a leading structural engineering firm in the Twin Cities, where I continue to work today. I have managed several successful structural engineering projects in my brief time at this firm. All this to say, I believe I have a good work-ethic, a holistic worldview, and a passion for change that would positively influence the City of Roseville both now and in the future.

As a commissioner on your preferred commission(s), how

I believe I would contribute to the City's equity and inclusion initiatives by evaluating and advising with a sense of understanding and care. I believe it takes all types of people to

could you contribute to the City's equity and inclusion initiatives?

live on this earth, and I believe we have a duty to uphold the responsibility given to us as humans to care for and utilize the resources, human and nonhuman, that are given to us on this earth. I believe we need to make decisions now that are going to impact the future generations in Roseville and beyond, all of which need to be inclusive and equitable.

How many years have you been a Roseville resident?	I have been a resident of Roseville since July 2022
Commission preference	Public Works, Environment & Transportation
Commission preference	Planning
This application is for	New Term

Note

There is no character limit for the fields below.

The City's commissions review specific areas of interest and provide advice to the city council. Please describe why you want to serve on the commission(s) you listed.

I chose to move to Roseville this summer because of the natural beauty of Roseville, the commitment and investment in parks and habitat, and the diversity of residents. We are in the midst of overwhelming environmental risk caused by human activities. I want to be part of the work necessary to keep Roseville a diverse, healthy, beautiful place to live. I want to see Roseville implement policies today that will help to reduce costs and improve sustainability in the future.

The Public Works, Environment, and Transportation Commission provides an opportunity to identify opportunities related to sustainable development and practices that can help

reduce the impacts of climate change. The Planning Commissioner provides an opportunity to identify sustainable economic growth which is the engine that drives opportunities to create systems and supports for a thriving community.

Please describe any activities, specific skills or experiences you have that you feel would be beneficial to serving on the advisory commission(s) for which you are applying.

I am attorney, although I gave up my Minnesota law license years ago because I was no longer engaged in litigation. Aside from giving me an impressive store of lawyer jokes, through my work I have gained strong research and analysis skills. I am skilled at being able to listen to all sides in an argument and to acknowledge valid positions, even when I personally disagree. Finally, through my various jobs I have gained a deep understanding of political processes and administrative law which I believe would be useful to any person serving on either the Public Works or Planning commission. My areas of expertise are poverty law, public benefits, and Medicaid specifically. Finally, I did not learn to drive until I was 30 years old. I relied on bus, train, and bike transportation. I think making sure the Public Works and/or Planning Commission is taking account of the positions of people who rely on these forms of transportation is imperative to sustain growth and ensure equity.

As a commissioner on your preferred commission(s), how could you contribute to the City's equity and inclusion initiatives?

I would enthusiastically support all initiatives to address systemic racism, sexism, ableism, etc. I have studied and participated in social movements aimed at social justice and equity. We live in a time of isolating and destructive political division. I believe it is my duty as a citizen of Roseville, MN, and of the United States, to: recognize that the systems that of economic and political power over the course of my life, and generations before me, have had the effect of limiting access to support, opportunity, and power for many people; and to keep trying to unravel those systems that unjustly advantage some people over others. I believe that a commitment to equity and anti-racism, anti-sexism, and, anti-ableism is the core of patriotism. How does that link up to decisions about yard waste, compost, and road resurfacing? Because if we don't recognize that the way we have always done things, even though we never intended any direct harm, has resulted in a world where BIPOC, LGBTQIA, people with LEP, people with disabilities, and women have been held out of decision-making on these everyday, mundane, but vital issues.

The City's commissions review specific areas of interest and provide advice to the city council. Please describe why you want to serve on the commission(s) you listed.

I am interested in serving on the PWET Commission because these individual items: Public Works, Environment and Transportation impact everyone who lives, works and visits our City.

Until an issue is experienced, people don't often think about everything Public Works touches, but they literally ensure people can travel about, have safe drinking water and waste disposal, public utilities available when and where required as well as other important day to day needs. Working WITH our

environment, rather than trying to bulldoze our way through is pivotal to creating a sustainable relationship with our surroundings. Taking the environment into consideration with how we manage our City initiatives is just as critical as establishing and adhering to a budget. Ensuring people can move about our great city safely and efficiently improves quality of life and provides people with the means necessary to handle their day to day activities. Essentially, these City functions ensure people have access to the amenities we all require (but often take for granted!). I would love to serve on this Commission as a means of giving back to our Community being I've benefited greatly from all these services and considerations for the Big Picture.

I am also applying because I believe it's important to be involved locally. Far too often, people are quick to have an opinion but slow to get involved. I want to help bring the voice of our citizens to our City Management and Council.

Please describe any activities, specific skills or experiences you have that you feel would be beneficial to serving on the advisory commission(s) for which you are applying.

I am a project manager by trade and work in a hybrid role between Tech and Construction for a major retailer. I help ensure hardware is successfully deployed within large-scale Remodel projects. I partner with a wide variety of people from Planning, Sourcing, Procurement, Supply Chain Management and Execution to ensure the millions of dollars invested into these initiatives are executed as efficiently and on-time as possible. This background helps me understand the Whys and the Hows as well as looking to understand how decisions made currently will affect the broader landscape downstream. I believe this perspective and experience would aid me in reviewing and contributing to the various topics covered by the PWET Commission.

Additionally, I am very passionate about the environment and have been organizing litter pick-ups throughout the City of Roseville since 2013. I partnered with our Public Works Streets Super Steve Zweber early on for assistance with supplies and pick-up of the collected waste. I then partnered with Roseville's Volunteer Coordinator to formalize this model as I knew there were other folks like me in the community who were doing the same thing: picking up when they noticed an area needed attention.

Another topic I am very passionate about is pedestrian traffic. I live off County B between Rice and Dale which is a heavy pedestrian traffic area with Met-Transit bus stops at both Rice and Dale, as well as several school bus stops along B. I believe everyone has the right to move safely from Point A to Point B. Because of this, I often follow up with Ramsey County and the City of Roseville regarding unsafe pedestrian situations, whether it be vehicle speed, needed snow removal or painted cross-walks. I am happy to continue making those who manage these spaces aware of potential hazards, but I would like to get more involved and help identify patterns and areas of opportunity proactively, hence my interest in applying for a seat on this Commission.

As a commissioner on your preferred commission(s), how could you contribute to the City's equity and inclusion initiatives?

Commissioners are an important conduit between our community and City Management and Councilmembers. Taking ALL people into consideration when contemplating the needs of our City is a non-negotiable. I believe it's important to engage with people from all backgrounds to understand their needs and gain perspective on how potential programs or initiatives could impact them: positively and negatively. This feedback is imperative in ensuring we are serving the WHOLE community. I don't know what it's like to be in anyone else's shoes. That's why I think it's important to engage with people and have meaningful conversations so that we can ensure those voices and unique perspectives are taken into account in any recommendations brought forth. Anyone who knows me will say I don't usually have a problem chatting with others. ;)

The City's commissions review specific areas of interest and provide advice to the city council. Please describe why you want to serve on the commission(s) you listed.

First of all it will be an honor to serve the city of Roseville, MN which I have called home since 2011. The woman I am today is because of Roseville and the kind people who lives here. I have lived in apartments and now I am the owner of a house for 7 years in Roseville. I went to school at Bethel University. I have worked at Como Park Block Nurse Program, Keystone Senior Community, Ebenezer and for Presbyterian Homes in different leadership roles all located in Roseville. During the pandemic I decided to be an entrepreneur and now I am the owner of Namaste Brows and Boutique in Lexington Plaza. I have passion to serve and help others. I am a learner and an positive person. I am a wife of a guy born and raised in

Roseville and I am a hardworking mother of two beautiful kids 2 and 5 year old. Living here in Roseville the last 12 years I have seen and experienced a lot of growth but in few areas we still need to fill the gap. If I am given the opportunity to serve as a volunteer commissioner I will share by experiences as a woman who came from Nepal, who went to school here, worked in different capacity, lived in different apartments and house, as a parent and now as a business owner in Roseville.

Please describe any activities, specific skills or experiences you have that you feel would be beneficial to serving on the advisory commission(s) for which you are applying.

Communication is my strength. I am a good listener and also not afraid to speak up. I love solving problems and helping people live a happy and real life. I believe in hard and smart work. I feel responsible as a resident, parent, business owner to participate and be involved in different capacities to build our beautiful Roseville.

As a commissioner on your preferred commission(s), how could you contribute to the City's equity and inclusion initiatives?

As a person who have served seniors for 10 years I could help with planning on how to make Roseville Senior friendly. We have a large number of seniors who say Roseville there home and I want to be an advocate for them. Being a Minority Asian Business owner I see hope and better future for us and we contribute to the economy of this city. I would love to plan on events and training's to equip them to believe and sustain. I am very open minded, friendly and have friends from different backgrounds, ethnic groups, experiences.

Please indicate any reasonable accommodation needed during commissioner interviews and onboarding.

Why do you want to serve on this Commission?

Prior to moving to Roseville, I was regularly involved as a community volunteer, including serving as a member of my local school board. I would like to get involved in my new community and feel that I have the maturity, temperament and intelligence to serve on the Human Rights, Inclusion and Engagement Committee. I believe that a community is strongest when a variety of residents volunteer to help improve one another's lives.

What is your view of the role of this Commission?

The commission should be charged with developing programs that address the assurance of everyone's rights as a human, regardless of race, ethnicity, sex, religion or sexual/social status or orientation. The commission should regularly monitor current programs for effectiveness, suggest changes to existing initiatives and explore additional programs that will provide opportunities to enhance all Roseville residents' human rights. It should also increase ways citizens can be more easily and effectively involved in our community

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?

I am a retired educator with a varied background of school experiences including advising the Peer Mediation Program and was the director of an in-school anti bias, diversity program developed by the Anti-Defamation League. I was also a Substance Abuse Counselor at the high school where I worked and in that position ran several student groups including: Smoking Cessation, LGBT teens and Teen Parents as well as counseling students who were using/abusing drugs and alcohol. I was a guidance counselor and a teacher of Special Needs students. I was a member of my local school board for four years until I moved to Roseville, a member of the Public Events Commission, a member of a downtown improvement study commission and the Vice Chair of a State appointed Commission to study the feasibility of consolidation with a neighboring community. I was involved in a community theatre group as an actor, director, board member and president.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.

Field not completed.

Civic and Volunteer Activities

Since I am newly arrived (and finally settled in) this is my first foray into civic volunteerism in Roseville.

Work Experience

US Army 1968-1970 Teacher, counselor, Substance Abuse

Coordinator - 1970-2001

Education BA - University of Denver Professional Certification MA -Student Personnel Services Certified Teacher of the Handicapped Certified Substance Abuse Coordinator

Is there additional information you would like the City Council to consider regarding your application? I have the time, experience and temperament to serve on this commission. I am willing to put in the time and effort to be an engaged, effective member of the commission.

How many years have you been a Roseville resident? 20+

Commission preference Human Rights, Inclusion and Engagement

Commission preference Police Civil Service

This application is for New Term

Why do you want to serve on this Commission?

Time for taking things for granted is diminishing. And the idea of doing the right thing is a half glass full. Equality and equity distribution is too becoming "the eye of the beholder." In the midst of all these there is little effort to keep all channels of legible communications for all stakeholders, the people, open. Too much mistrust, even when there is genuine effort to do right.

For this reason I want to be part of the conversation; part of the resolve to find common grounds; part of the reason Roseville is the best livable city in the state and that cares for all communities, not partial.

What is your view of the role of this Commission?

To unravel the misunderstandings, if there is any, and shade light on where there is most need. That Roseville is the Arina, different communities therein as residents are all team players. Regardless of there origin, beliefs, religion, political affiliations or sex orientation. We are all under this mammoth petal of the rose flower.

Also, most important support and provide different dimmensions of views to enhance delivery services set by the city council.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?

I have good interpersonal and verbal communication skills, worked in different cultural diversity programs, both in college and work places. Been in various committees tasked to look into ways and means to improve work environment. How to ensure visitors and employee satisfaction. I do feel as an immigrant I see things from a different lens.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.

Police civil services.

I grew up in a family of police officers. Some family members are still serving. I have had both good and bad experiences with the police officers that has reinforced my desire to be an agent of change rather than a by stander. And yes, I strongly believe in our police officers, they do have a difficult job, but some things can be improved. The reason why I joined MAC.

Civic and Volunteer Activities MAC

Friend of Roseville Library. I assisted move them to and back during the renovation.

Gathering Place. Provide restaurant ordered warm meals to parents with inpatient children in HCMC hospital.

Work Experience

Patient Experience and welcome ambassador at Hennepin Healthcare System (HCMC), Mpls- 2011to current.

Staffing Cordinator/Cultural Diversity at St. Joseph, St. Paul - 2000 to 2010.

Documentation specialist (Guidant Inc.) now Boston Scientific.

Portfolio Acct administrator (Realistar/Ing)

Education BA in Psycholgy

MA in Organizational Leadership

Is there additional information you would like the City Council to consider regarding your application?

Been living in and around Roseville since 1996. I love this city. Super friendly individual that can strike a conversation with anybody if they are not super angry.

This application is for	New Term

Note

There is no character limit for the fields below.

The City's commissions review specific areas of interest and provide advice to the city council. Please describe why you want to serve on the commission(s) you listed.

Building a community where all people feel safe and affirmed is the foundation upon which civic life can thrive. When we increase felt levels of safety and affirmation of all persons, the community both gains greater access to the gifts and talents of all of its citizens and decreases the number and level of friction points that lead to greater community stress with all of its attendant costs. I wish to be part of the positive process that continues to grow and enhance these positive community qualities.

I see participation on the planning commission as having two positive outcomes. The first is to help with planning the

infrastructure that can maintain and create conditions for the safe and affirming community that I have stated above as a central goal for any community. The second is to help with the process of granting exceptions to well constructed plans when it is obvious that they do not serve the needs of a particular situation.

Please describe any activities, specific skills or experiences you have that you feel would be beneficial to serving on the advisory commission(s) for which you are applying.

I am recently retired from over 30 years of work on the staff of a suburban church that has consistently sought to be open and affirming - to women, to people of various gender identities, and to people of various racial and ethnic groups. I have the experience of being a shunned person for all of my public school years. This experience has given me a sensitivity to inclusion issues that is sometimes lacking in older white males.

I have a lifelong interest in city planning. The first two years of my undergraduate work were in political science and local government. I have served on my condo association Board of Directors for 14 of the last 18 years. I testified before the Roseville City Council regarding the initiative that our association and others had several years ago to change the zoning at 3253/3261 Old Hwy 8 from HDR to MDR.

As a commissioner on your preferred commission(s), how could you contribute to the City's equity and inclusion initiatives?

As a 70-year-old white male, I obviously don't contribute physically to any effort to gain representation on Roseville commissions for portions of the city's population that may have been historically underrepresented. I do, however, have a strong commitment to see that all voices are heard in the decision making process and would do my best both to find those voices and to listen attentively when they speak.

Please indicate any reasonable accommodation needed during commissioner interviews and onboarding.

I don't believe that I need any special accommodation.

The City's commissions review specific areas of interest and provide advice to the city council. Please describe why you want to serve on the commission(s) you listed.

As a lifelong Resident of Roseville I care about our Park and Rec system. I have witnessed its growth to what it has become today. That takes allot of upkeep and planning. I have worked with Parks and Rec in helping improve upper Villa Park. I am on many nonprofit boards. I recognize the collaboration and process that is needed to be on a successful one. I am working with local nonprofits as well with my work as the Treasurer of the Roseville Area Community Foundation, Roseville Senior Council. I am also a Roseville Lion and a member of the B-Dale Club. These roles help bring a diverse viewpoint as they represent many different local groups. We need to encourage the

participation of local groups to help preserve the parks when we can. Making sure each voice is heard is important. Roseville's Demographics are changing. With that, the Parks and Rec must change and group. Per Data USA we have 8.41% Asian, and 8.13% African American. Our median age is 39 compared with St Paul which is 32.5. We need to make sure our parks reflect not only our demographics now but it the future.
I look forward to contributing what I can and working with others toward the Park and Recs vision

Please describe any activities, specific skills or experiences you have that you feel would be beneficial to serving on the advisory commission(s) for which you are applying.

I am retired, so I have more time to devote to this commission. I am a member if the following
B-Dale Club 1984- Current
Roseville Area Senior Council'2020-Current
Roseville Energy Action team 2021
Roseville Lions 2007-Current
Roseville Area Community Foundation 2009-Current
North Suburban Gavel Club Volunteer of the year award winner and a lifetime member
former League of Woman Voters Roseville area 2013 to 2022
Suburban Rasmey Emergency Coalition 2020-2021

As a commissioner on your preferred commission(s), how could you contribute to the City's equity and inclusion initiatives?

Ny reaching out to different groups and view points. In order to have the park system grow we need to grow with our changing demographics.

Please indicate any reasonable accommodation needed during commissioner interviews and onboarding.

Commission preference Field not completed.

This application is for New Term

If this is a student application please list grade in school Field not completed.

Note

There is no character limit for the fields below.

Why do you want to serve on this Commission? I've lived in Roseville for almost 15 years and I feel like it's time for me to become more involved in city activities. This is a good way for me to volunteer my time and get to know the different aspects of how the city is run.

What is your view of the role of this Commission? The commission helps with hiring new officers and making sure the officers are supported to succeed. The commission wants to hire the best officers for the job and support them as they support the community.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying? I work in the Roseville Area Schools and work a lot with the community. I know how important it is to be supported in your position by people who want you to succeed. I'm also a librarian and pay attention to detail. I think that would be helpful in selecting the best candidates for positions to best support our city.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission. Field not completed.

Civic and Volunteer Activities I'm a member of the local PTA (at two buildings) and volunteer at most school events, including carnivals, book fairs and other activities where I come in contact with many citizens of the Roseville community.

I started hosting our Night to Unite almost 10 years ago. It started with 6 families and has grown to include the whole neighborhood.

Work Experience Roseville Area Schools (Media Specialist) - 2016-present

Richfield Public Schools (Media Specialist) - 2015-2016

White Bear Lake Area Schools (Media Specialist and Classroom teacher) - 2009-2015

Michael Frome Academy (Classroom and Music teacher) - 2008-2009

Osseo Area Schools (Classroom teacher) - 2005-2008

Expeditors International (Ocean Export Agent) - 2004-2005

Minneapolis Public Schools (Math teacher) - 2002-2004

Osseo Area Schools (Paraprofessional) - 2001-2002

Education BA from Hamline University - graduated 2001

MLIS from St. Catherine University - graduated 2012

Is there additional information you would like the City Council to consider regarding your application? I live near Central Park and I drive past the entrance on my way home. I see the sign that says Roseville Rejects Racism and it makes me appreciate where I live. I'm glad Roseville is taking a stand and being vocal about rejecting racism. I was in some community forums last year that included Mayor Roe and some City Council members. I think Roseville is on the right track and I think being a part of the Police Civil Commission is a way I can help continue that trend in the right direction.

I'm the daughter of a former city alderman from Monona, Wisconsin, and I grew up in a family that values community service. I feel like it's time for me to become more active in my community and support the police officers of Roseville.
