**ITEM:** 6C

---

---

### **Background**

Attached is a document that Chair Beltmann has put together to help guide the work for the year. The goal of this is:

1. Create a better system for accountability
2. Structure the commission meetings so more commissioners have ownership over the agenda.

The intent is to discuss the action items and assign work to commission members for each of the approved work plan items.

### **Recommendation**

Discuss action items and assign “Leads” to fill out the remaining areas and bring back for discussion in March.
