I am glad Councilmember Wayne Groff Is bringing up the dingle hauler discussion. Having 6-7 garbage trucks travel our street twice every Thursday is a real pain it is not economical and is environmentally unsound. We have bee with Walters for 25+ years - garbage and lawn waste and hope we dont lose them. They have always responded to problems in an efficient, polite and professional manner. If we go with one hauler like St Paul, we need to have a more responsive company when there are problems and concerns. If you have no choice on the hauler, some companies will not be responsive - look at Waste Managemrnt's reputation.

Greg Heimann

Hello:

I have registered to attend the May 17 meeting of the City Council via videoconference. As I desire to speak to the 6:50 PM agenda item on organized trash collection, I am requesting to be recognized by the Mayor when the item is brought forward. If there's anything further you require from me prior to the meeting so that I may speak to this agenda item, I will do my best to provide it. Just let me know.

Thank you for this opportunity.

Good morning,  
I writing as I see on your agenda you are beginning to discuss organized trash collection in Roseville. This issue has come up many times in the past and has failed. I am against city wide organized trash collection. I have Gene's, which is a family owned company that collects my trash. I do not want my business to go to the big companies that push the smaller companies out. The main issue I hear for organized trash is to reduce all the trash trucks going down the streets. This is not a valid reason. We have way more UPS, Fed-Ex, Amazon,

Appliance, Tree Removal type of trucks going down our streets each day as well as the busses that drive in our neighborhoods when the State Fair is running. I also live by Ace hardware, they have many delivery trucks driving down Roselawn as well. Not to mention all the hauling trucks when Roselawn Cemetery was hauling in and brining out dirt for several years. Our weekly garbage trucks are not the sole blame for issue on our roads and it's a poor excuse to push organized trash upon us all. Price seems to be another major so called plus that is pushed for organized trash. Well if you ask the people of St. Paul if they have a lower bill they will say no. There are many complaints about how people have been charged if their lids are not fully closed and other fees as well. I hope Roseville dose not make this mistake and take away one more freedom from people. I would like weekly recycling pick up though. There are many times I have to make a trip to Advanced Disposal with extra recyclables. Thank you for reading my letter and considering my issues. Barb Deacy

Hello,  
I saw that there is an agenda item to discuss organized city garbage haulers. If that is going to happen would you please consider people who do not generate much garbage? My husband and I only generate a small amount of garbage and so are able to get a smaller garbage can that costs less then the standard size garbage can (and we still don't fill it). I think garbage cost should be based on usage. Several people on our block have multiple garbage cans, since they have larger families and most have the standard size garbage can. That is fine, since

they are paying for them. I do not want to have to subsidize other people's garbage costs. I also, am very happy with our current garbage haulers - Aspen Waste. They never miss a pick-up.  
Thank you!

Thanks to the Council for taking up the important environmental and economic topic of organized trash collection on Monday. I long to only hear one truck traversing our street collecting trash instead of the current four. They tear up the street prematurely and cause pollution. Equally important in my mind is the unfairness of pricing that results from those who are savvy and have time to be able to get lower prices for only themselves vs. those who aren't similarly situated so pay much higher prices than their neighbors. Often those are the very people who can least afford it.

Please Share Your Comment, Question or Concern Organized trash collection is good for the infrastructure, environment and the residents. I have been a part of this position for about 36 years. Change is difficult and not always popular. For the good of Roseville, I encourage the city council to support an organized trash plan. Thank you for your consideration.

I heard you are discussing organized waste hauling in Roseville. I am completely against this idea. I choose a trash/ yard waste company that allows me to put out as many extra bags of yard waste as we want. My neighbor has a large family so they choose a trash company that allows extra trash bags but not extra yard waste. I also saw you are considering every 2 weeks for trash pick up. That is a terrible idea with dog poop, diapers, and rotting food smells in the summer. Plus each year the recycling company allows less and less types of things that can be recycled. If you want to effect emissions the best way to do

that is to require all vehicles to go thru emissions testing every year or two in order to renew tabs. I'd they fail then they can't renew their tabs. Taking a couple trash haulers off the roads won't make a big dent in emissions. I want to have choices. Look what happens when you remove our choices with gas/power companies. We don't have a choice and the power company makes bad decisions and now we are paying for problems in Texas. If we had choices in power companies we could take our business to other companies and not get in the situation we have to pay for another state. I want choices in trash companies too. Don't take my ability to make a choice away!!

I heard that city council is discussing organized trash hauling including changing trash pickup to every other week. This is a terrible idea. For one, who wants trash sitting around for 2 weeks in the heat of the summer filled with dog waste, diapers, rotting food, etc. And I certainly don't need you telling me who should be picking up my trash. Consumers deserve a choice. These providers all offer different practices. I choose Waste Management because they allow unlimited yard waste which I have quite a bit of during the fall. My neighbor's provider only allows what fits in his bin. But his provider does not charge for

extra trash bags as mine does. Citizens deserve to choose what options suit them best. Not forced into using who city council thinks is best. Thanks for listening, Tod Lavanty

I understand an item on the May 17 agenda addresses organized trash collection, and I see several documents attached providing background information. I have learned that there are at least 35 cities or townships in 4 counties: Hennepin, Ramsey, Washington and Anoka that already have organized trash collection. In Ramsey County, it is 50% of municipalities and townships. . Clearly lots of municipalities have taken a lead on this. Hopefully Roseville can be next! Trash haulers, the city, the environment will all benefit!

Thanks for giving timely attention to this matter.  
Donna Peterson

**Caution:** This email originated outside our organization; please use caution.

I take exception to the way in which this information has been presented to the Council, especially in quoting a source article from the ultra liberal Minnesota Public Radio which is on the doll from our Government big time. Also according to a very reliable source, there are only 3 haulers picking up residential waste, not the ten that are listed. Also, the consideration of road wear and tear is negligible with only three haulers active in residential pickup, and green pollution is unwarranted since most, if not all, trucks are now natural gas powered. Most of this information is now several years old and not currently relevant. Does this Council represent what the residents of Roseville want in a free enterprise system, or is this Council more intent on ruling people's lives and making them conform to dictatorship rules? Government is formed to serve the people rather than make them conform to its rules. Please allow the private companies to be in the business they have built and live on without government interference. It is what makes this country great. Not government!

**Caution:** This email originated outside our organization; please use caution.

Mayor Roe and the City Council Members,

As citizens of Roseville we ask you to vote NO on removing the 2015 agreement to no longer place city management of trash hauling on the council agenda. We understand that at the above subject will again be brought to a vote by the City council tonight.

Time and money was spent on this same issue in 2015, and the citizens of Roseville overwhelmingly said "Stop pushing this issue". The City Council agreed not to bring it up again. Nothing has changed since 2015 except for a couple of new council members, so here we go again.

We don't want or need The City of Roseville or Ramsey County usurping our freedom and right to choose our own trash hauler.

Please vote NO on rescinding the 2015 agreement.

Centralized trash not needed. Amazon, UPS, Fedex on my street constantly throughout day. Noisy, increased wear and tear on roads. Yet another example of far reaching arm of government. Worry about not spending all my money, increase in violent crime, gun violence . Just look to St Paul for an utter failure. Thank you!over development of every square inch of land, lowering my tax burden, environment..overwatering of lawns..HUGE WASTE OF RESOURCE, cleaning up of area lakes from huge algae blooms; water runoff and over fertilizing. Just seems more pressing issues than trash service.
