ASSUMPTION OF RISK

The novel coronavirus (COVID-19) has been declared a worldwide pandemic by the World Health Organization. COVID-19 is extremely contagious and is believed to spread mainly from person-to-person contact. With guidance from the MDH, Roseville Parks and Recreation Department has put in place preventative measures to help reduce the spread of COVID-19, however the Department cannot guarantee that individuals will not become infected with COVID-19. Participation in Department activities could increase the risk of contracting COVID-19.

Note: By participating in this league, you may be considered to have close contact with players on your team and other teams, according to the Minnesota Department of Health. This may result in quarantining if a person on your team or the opposing team tests positive.
