

Complete your home energy projects with these simple steps!

Keep Upfront Costs Low with Rebates

Earn rebates from Xcel Energy for upgrading equipment and pursuing innovative technologies. Replace heating and cooling equipment, water heaters, insulation and more.

Visit [xcelenergy.com/HomeRebates](https://www.xcelenergy.com/HomeRebates).

Use a Registered Contractor

Consider choosing an Xcel Energy registered contractor that is familiar with utility rebates available for energy-efficient equipment.

To find the list of contractors visit [xcelenergy.com/ContractorSearch](https://www.xcelenergy.com/ContractorSearch).

Low-cost Financing Available

Financing help is available through a variety of loan and grant programs for Roseville residents.

- Visit [CityofRoseville.com/HomeEnergyAssistance](https://www.cityofroseville.com/HomeEnergyAssistance) for energy improvement loans to help with energy efficient appliances and project implementation costs.
- The Minnesota Finance Housing Agency offers loans and grants for home improvements.

Visit [mnhousing.gov](https://www.mnhousing.gov) to find a lender.

PARTNERS IN ENERGY

Interested in other ways to increase efficiency and comfort?

Sign up for a Home Energy Squad® visit to learn how your home uses energy and opportunities to cut costs.

Thanks to the City of Roseville, the cost for a visit is only \$50 (normally \$100). Sign up today to get a home energy audit at xcelenergy.com/HomeEnergySquad or call **651-328-6220**.

Complete project recommendations with support from the Energy Advisors.

After you have your audit, free support and guidance are available from the Energy Advisors. They will connect you to vetted contractors, specialized financing, and rebates. Call **612-244-2484** or email energyadvisor@mncee.org.
