

# SMALL BUSINESS ENERGY SAVINGS DON'T MISS OUT!

Roseville invites you to be a business leader in helping to achieve our community's energy goals.

## Step 1: Sign Up for a Free Energy Assessment

Learn how your business uses energy and how to improve your energy efficiency with a free energy assessment from the Minnesota Chamber's Energy Smart. The free assessment will help you identify energy-saving opportunities and determine when to invest in new, efficient equipment.

Get started by visiting [mnchamber.com/energy-smart](https://mnchamber.com/energy-smart).

## Step 2: Save Money and Energy with Rebates

Discover utility rebates available for replacing lighting, HVAC equipment, foodservice equipment, and more.

Find rebates at [xcelenergy.com/business](https://xcelenergy.com/business).

## Step 3: Explore Financing Options

Low-interest financing is available to help fund projects.

- **Property Assessed Clean Energy (PACE)** makes it easy to invest in energy efficiency and renewable energy projects with no upfront costs. Building owners who use PACE pay back the loan through property taxes as a voluntary special assessment. Visit [minnpace.com](https://minnpace.com) to learn more.
- **Trillion BTU Financing** can cover up to 100% of costs for eligible energy projects. The goal of the program is to create a positive cash flow payment schedule with energy savings exceeding the payment obligation. Visit [sppa.com/Trillion-BTU](https://sppa.com/Trillion-BTU) to learn more.
- **Commercial Energy Efficiency Loan Program** provides up to \$100,000 in financing to businesses making cost-effective energy efficiency improvements. Visit [mncee.org/Lending](https://mncee.org/Lending) to learn more.

An Xcel Energy Community Collaboration

# More Ways to Save!

**Lighting:** Make the switch to LED bulbs to drive long-term energy and cost savings to your bottom line.

**Commercial Refrigeration:** Improve energy efficiency with anti-sweat heater controls, zero-loss energy doors on freezers and coolers, and LED refrigerated display case lighting.

**HVAC-R:** Install a high-efficiency boiler, furnace, and water heater with rebates from Xcel Energy.

**Automatic Shut Offs:** Automate your stock room lights and HVAC system to shut off when they're not being used with occupancy sensors and updated controls.
