

ROSEVILLE
REQUEST FOR COUNCIL ACTION

Date: October 17, 2022
Item No.: 10.c

Department Approval

City Manager Approval

Item Description: Approve City Sign Permits for Community Visioning Hello Lamp Post Signs

BACKGROUND

The City Council annually approves sign permits for city events held throughout the year by multiple City Departments. For 2022, as part of the Community Visioning process, the City Council authorized Zan Associates to utilize a unique approach to gathering input using a product called Hello Lamp Post (HLP). The HLP process requires putting up signs throughout the city which allows people to interact with through text messages.

City Code Section 1010.03 B. exempts signs erected by a public agency in and/or above or overhanging a public right-of-way, however staff feels it is best practice to seek approval from the City Council for the signs. These signs will be primarily located in city parks, and for other locations, permission is being sought from the authorized agency or owner of the location.

A list of the general locations for the signs on City property is in the attached summary. Signs will be placed following Council approval and will be as weather allows. Additional signs will be placed elsewhere in the city once permission is received from the property owner.

BUDGET IMPLICATIONS

None.

STAFF RECOMMENDATION

Staff recommends approval for Hello Lamp Post signs to be located throughout the city as detailed in the attached summary.

REQUESTED COUNCIL ACTION

Approve the Hello Lamp Post signs located throughout the city as detailed in the attached summary.
