Commission preference Field not completed.

This application is for New Term
If this is a student application please list grade in school Field not completed.

Why do you want to serve on this Commission?
I'd like to serve the community that I live in and that I enjoy being a part of.

What is your view of the role of this Commission?
I could advise on such matters as:
Annual financial reporting
Internal controls
Budget goals

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?
I'm a CPA with 10 years of accounting experience. I'm currently a corporate accounting manager with Bio-Techne. I was in external audit for approximately 6 years, including 2 years auditing governmental entities at KDV.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.
Field not completed.

This application is for New Term

If this is a student application please list grade in school N/A

Why do you want to serve on this Commission?

I believe it is important to serve in the community and I think my skill set aligns well with the finance commission. I have been a treasure for a couple alumnae associations, worked on a facility planning group for church, and at work am on large new product development projects. Each of these required weighing many different needs and goals to determine a financial plan.

What is your view of the role of this Commission?

My view is the commission is an important role for the community to provide input on how our city resources are used.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?

I have been a treasure for a couple alumnae associations, worked on a facility planning group, and at work am on large new product development projects. I also took several finance courses when I studied for my MBA. In each of these experiences; the needs and goals are identified, how much they cost, what amounts of benefits they bring, and then a discussion is had on how best to use the funds available. I enjoy the financial planning process because it I like a puzzle trying to find the best solution.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.

I am an engineer and enjoy understanding how things work and like to make them as efficient as possible. Things like roads, pipes, and other public works items are important to how our community functions. If something is poorly planned, it affects many people. I was on a facility planning group at my church to determine how best to improve a building that had been added onto multiple times and as a result needed better traffic flow, updated utilities, and more efficient use of space to make the building function better as a whole.

If this is a student application please list grade in school Field not completed.

Why do you want to serve on this Commission?

My family and I have settled into our community near the library and I'd like to contribute to the continuous improvements to our city. I have always had a distant interest in public service and the events over the last year have been the last push needed for me to get more involved.

What is your view of the role of this Commission?

The commission has accounting and finance functions, they help the City understand what they've spent their money on as well as how they will be able to fund future projects. One of the more important components of the commission is to allow for transparency. Individuals within both political parties have different perspective on taxes and government spending, the Commission is acting as an independent issuer of facts, hoping to provide clarity to all taxpayers as to why and how decisions are made while letting the data tell the story.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?

For the last 7 years I have been in informational reporting and withholding tax world in which my career has required me to manage teams and processes. While managing a team I had to set and stick to a budget, set operational and financial goals, create capacity and revenue planning models, and be able to communicate my actions to people who know nothing about tax. These roles have required a lot of creative problem solving which has helped me look at issues from different angles to find the most advantageous solution.

I have also completed my studies and have received my MBA degree with an emphasis in Finance from the Carlson School at the University of Minnesota in May of 2020.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.

Field not completed.

How many years have you been a Roseville resident? almost 15

Commission preference Police Civil Service
Commission preference Field not completed.

This application is for New Term
If this is a student application please list grade in school Field not completed.

Why do you want to serve on this Commission?
I've lived in Roseville for almost 15 years and I feel like it's time for me to become more involved in city activities. This is a good way for me to volunteer my time and get to know the different aspects of how the city is run.

What is your view of the role of this Commission?
The commission helps with hiring new officers and making sure the officers are supported to succeed. The commission wants to hire the best officers for the job and support them as they support the community.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?
I work in the Roseville Area Schools and work a lot with the community. I know how important it is to be supported in your position by people who want you to succeed. I'm also a librarian and pay attention to detail. I think that would be helpful in selecting the best candidates for positions to best support our city.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.
Field not completed.

Civic and Volunteer Activities
I'm a member of the local PTA (at two buildings) and volunteer at most school events, including carnivals, book fairs and other activities where I come in contact with many citizens of the Roseville community.
I started hosting our Night to Unite almost 10 years ago. It started with 6 families and has grown to include the whole neighborhood.

Work Experience
Roseville Area Schools (Media Specialist) - 2016-present
Richfield Public Schools (Media Specialist) - 2015-2016
White Bear Lake Area Schools (Media Specialist and Classroom teacher) - 2009-2015
Michael Frome Academy (Classroom and Music teacher) - 2008-2009
Osseo Area Schools (Classroom teacher) - 2005-2008

Expeditors International (Ocean Export Agent) - 2004-2005
Minneapolis Public Schools (Math teacher) - 2002-2004
Osseo Area Schools (Paraprofessional) - 2001-2002

Education

BA from Hamline University - graduated 2001
MLIS from St. Catherine University - graduated 2012

Is there additional information you would like the City Council to consider regarding your application?
I live near Central Park and I drive past the entrance on my way home. I see the sign that says Roseville Rejects Racism and it makes me appreciate where I live. I'm glad Roseville is taking a stand and being vocal about rejecting racism. I was in some community forums last year that included Mayor Roe and some City Council members. I think Roseville is on the right track and I think being a part of the Police Civil Commission is a way I can help continue that trend in the right direction.

I'm the daughter of a former city alderman from Monona, Wisconsin, and I grew up in a family that values community service. I feel like it's time for me to become more active in my community and support the police officers of Roseville.

Please tell us how you heard about this opportunity/vacancy. This information will help us understand and improve our recruitment and advertising.

How many years have you been a Roseville resident? 1

Commission preference Police Civil Service
Commission preference Finance

This application is for New Term

If this is a student application please list grade in school Field not completed.

Why do you want to serve on this Commission?
I would like to serve on Roseville's Police Civil Service Commission.

As police officers are some of the most visible members of city government and there are consequences to the public and the City if they do not follow procedures, laws, and standards, it is incumbent that we ensure that the hiring and employment practices are fair and up to a very high standard. Serving on this Commission is one way I can contribute to our city.

What is your view of the role of this Commission?
My knowledge of the Police Civil Service Commission is limited to what is available on the City's website. I understand the overview & functions of it, but it was hard to find any level of detail in the agendas, and since the minutes are not posted, it is hard to find out what was accomplished.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?
I have successfully performed oversight functions in both my professional and volunteer roles.

I have a passion for process. I want to make sure that our government functions in a smooth and appropriate manner.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.
My second choice would be to serve on Roseville's Finance Commission.

I have successfully performed oversight functions in both my professional and volunteer roles.

I have worked as a Financial Analyst and have been involved in budgeting, variance analysis, and audits for nonprofit organizations and divisions of companies for more than twenty years.

I have a passion for process. I want to make sure that our government functions in a smooth and appropriate manner.

How many years have you been a Roseville resident? 8

Commission preference Police Civil Service
Commission preference Field not completed.

This application is for New Term

If this is a student application please list grade in school Field not completed.

Why do you want to serve on this Commission?

If Roseville is to have a police department I appreciate that there are residents on the commission to help guide the hiring/movement of personnel in the department. I want to do my small part to help move the hiring practices forward and be a part of the community. I want to break the mold of a points based, bureaucracy based system and help make the hiring a community based initiative.

What is your view of the role of this Commission?

I believe the role of the commission is to help shape the candidates for the police department by influencing the hiring process.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?

I don't believe that doing things just because they have been done before is the way to move forward.

I have experience on hiring committees as well as reviewing and making data driven decisions to move projects and practices forward.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission. Field not completed.

This application is for New Term

If this is a student application please list grade in school Field not completed.

Why do you want to serve on this Commission?

Local government is one way the average citizen can easily participate in and help direct the future of their community. I would like the opportunity to directly participate in our City government and be a person who helps keep their City progressing. I believe my talents and experience would be beneficial in serving the City. In addition, I would enjoy learning more about how Roseville works.

What is your view of the role of this Commission?

This Commission helps the Council and Public Works operate the infrastructure of the City, which includes roads and parks, water and sewer systems, and other City deliveries like recycling and snow plowing. The goal is to manage the City safely, efficiently, and for the benefit of all.

Advice can be direct, such as on the review of alternatives for a transportation study or life cycle costs of equipment purchases. However, advice should also consider indirect impacts like ensuring improvements are increasing accessibility and mode choices.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?

My professional career started as a traffic engineer, completing studies for developments and evaluating their impact on the surrounding system. That blossomed into increasingly larger projects for cities, counties, and the State, within Minnesota and in other states, to my current position managing projects for MnDOT. This experience has taught me the value of thinking beyond vehicles as well as how projects and decisions can impact a community, both positively and negatively.

Through my work, I routinely deal with Public Works Directors, City and County engineers, and Councils and Commissions on the same issues that are likely to arise in Roseville.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.

My work experience includes being the president of small engineering firm. In that role, I routinely dealt with budgetary items, weighing impacts of decisions on short- and long-term goals. My current position as a project manager at MnDOT also deals with financial impacts on multi-million dollar projects.

I am generally familiar with financial terms and process. My experience includes developing compensation and bonus plans, comparing purchase options and life cycle costs, and reviewing operations for cost savings and opportunities.

Civic and Volunteer Activities

My experience and activities during my time in Roseville reflect a variety of local items within the City and regional/national items through my professional organizations. These include:

- Helping to lead, organize, and direct our neighborhood block party for several years
- Participating in the Roseville District Special Education Advisory Council
- Participating in elections as an election judge
- Serving on the local board for the Institute of Transportation Engineers (ITE) organization
- Serving as a sub-committee lead for local/regional events and a national conference held by local, regional, and national ITE groups
- Presenter of multiple Traffic Engineering topics and research items at various professional organizations

Work Experience

I am a licensed, professional engineer with over 20 years of experience managing transportation and traffic projects and project teams. This work generally involves handling multiple workloads, resources, and schedules simultaneously.

Currently, my position is a Project Manager within the Metro District of the Minnesota Department of Transportation. Prior experience includes both public and private organizations, focused on serving communities and improving the transportation network.

Education

Licensed Profession Engineer (Minnesota)

Certified Professional Operations Traffic Engineer (National)

Bachelor of Civil Engineering, University of Minnesota - Twin Cities

Is there additional information you would like the City Council to consider regarding your application? Through projects with and for cities, I have had the opportunity to work with and present to multiple City Councils and County Boards. This has provided me with experience on how councils operate as well as a comfort level of participating in this formal setting.

I am excited about this potential opportunity to participate in my City from a different standpoint.

Please tell us how you heard about this opportunity/vacancy. This information will help us understand and improve our recruitment and advertising. Discussion with City Staff regarding the new vacancy on the Public Works Commission

Commission preference Public Works, Environment & Transportation

This application is for New Term

If this is a student application please list grade in school Field not completed.

Why do you want to serve on this Commission?

I moved to Roseville almost 4 years ago. I immediately felt at home and I became a board member of the homeowner's association in the condo where I live, and then became president of the association. I was encouraged by one of the homeowners to attend a Public Works commission meeting about a Sustainable Roseville, and I was really pleased with the experience.

What is your view of the role of this Commission?

I expect that the commission's role is to advise and direct the Public Work Department and others regarding public works, environmental, and transportation items, like the Sustainable Roseville plan.

What specific skills or experiences do you have that would be beneficial in serving on the advisory commission for which you are applying?

I work as a water utility management consultant as my day job. I appreciate that Roseville gets its water from the St Paul Regional Water Services, which is excellent water quality. I appreciate that Roseville recently performed an analysis of its water rates and made updates, both from the perspective of a citizen, and as someone who works in the water industry. The balance between service charges based on service line size and usage can be a delicate one, especially during a drought. Thankfully St. Paul has a reliable surface water source, the Mississippi River, and we are less affected by droughts. I am interested to continue the good work of the commission with my experience related to water, transportation, and the environment. I am a proponent of clean air and water and I would look forward to emphasizing the importance of a Sustainable Roseville.

If you identified a second choice commission, please include skills or experiences that would be beneficial for serving on that commission.

Field not completed.

Civic and Volunteer Activities

I have been a board member of the Midland Grove HOA for the past three years.

Work Experience

My relevant experience is that I've worked for EMA, Inc., a Roseville company, for the past six years as a management consultant and project manager in the water industry. Prior to that I worked for a variety of companies in IT leadership roles.

Education

My relevant education has been in the water industry for the past six years. I have college credits from the University of Minnesota, Hennepin Technical college, and St., John's University.

Is there additional information you would like the City Council to consider regarding your application? I would like to bring my industry experience to bear on my City's government vial the Public Works Commission. I appreciate the recommendations of my neighbors and I am hopeful that the City of Roseville would select me to serve in this way.

Please tell us how you heard about this opportunity/vacancy. This information will help us understand and improve our recruitment and advertising. Wayne Groff received a recommendation for me and called me to discuss this opportunity.
