

ROSEVILLE PARKS & RECREATION

COVID-19 UPDATE

As the COVID-19 pandemic has worn on, the importance of recreational activities has been increasingly emphasized from both state and national health organizations as imperative to physical, mental and emotional health. Although some activities cannot be offered during the pandemic, we are committed to continuing to be innovative to provide recreational opportunities to the Roseville Community as safely as possible.

All recreational programs have been modified to comply with the Minnesota Department of Health and Center for Disease Control guidance for recreational programs. Modifications include physical distance, reduced group sizes, increased cleaning and sanitization, and more.

If you do not feel comfortable participating in organized recreation during this time, we encourage you to visit one, some or all of our city's 32 unique and eclectic parks. Currently, most amenities are open for use while observing social distancing guidelines.

The COVID-19 pandemic is ever-changing and we are committed to adapting with it to ensure the safety of our staff, participants and community as a whole. All activities are subject to cancellation or modification at any time due to safety concerns. For up-to-date information on all programs and services, visit cityofroseville.com/parks often.
