

# Program Safety Sheet

PROGRAM NAME: **SUMMER SKATE SCHOOL** (Updated 5/28/2021)

The following safety sheet has been created to share important information to keep participants and instructors safe. If you have any additional questions, please contact the Program Supervisor.

## **Participant Information:**

Prior to attending classes, participants should assess their health condition and pre-screen for COVID-19 related symptoms. Students who are feeling sick should not attend class. Activities will be planned to allow for social distancing and pods will be kept in separate areas. Participants must follow all safety protocols as communicated by the instructor.

## **Arrival and Departure Information:**

All skaters should enter the facility through the south/main entrance doors and asked to continue to exit the facility through the walking track emergency exit doors. Skaters are encouraged to come dressed and prepared to enter ice upon arrival. When getting skates on/off, skaters are encouraged to social distance when in lobby areas. Hand sanitizer will be available and should be used upon arrival and after class.

## **Spectator Information:**

We encourage only one adult parent/guardian to attend sessions with your skater to limit number of spectators in the building. Spectators are allowed to stay during class and asked to remain in bleacher areas of the arena. Any additional children brought should remain with their parent/guardian at all times and refrain from wandering around the facility.

## **Basic Cleaning Information:**

High contact surfaces will be sanitized on a regular basis in the arena, lobby areas and entire facility. Any training items used during class will also be sanitized after usage.

## **Facial Covering Information:**

People who are not vaccinated, including children, are not required to wear face coverings indoors or outdoors by state executive order, but are at risk for getting and spreading the virus that causes COVID-19. The Minnesota Department of Health (MDH) and the Center for Disease Control and Prevention (CDC) ***strongly recommend*** that anyone who is not fully vaccinated continue to wear face coverings indoors in businesses, public settings, and when around people from other households, as well as outdoors when social distancing cannot be maintained.

It is important to note that all Roseville Parks and Recreation programs have been planned, developed and conducted following the Center for Disease Control (CDC) and MDH guidelines for social distancing in Recreational Programs. Please be aware there is some risk of participating in any activity during the pandemic. Even though we are working to provide as safe as an environment as possible, 100% mitigation cannot be guaranteed for any activity.
