

City Council Work Plan Meeting

February 7, 2011

Council Member Jeff Johnson

Musts and Oughts

Musts

- o Solve the long and short term CIP shortages (budgeting process)
- o Support Parks & Recreation Master Plan Implementation Initiative (per survey and implementation input)
- o Support findings of the Fire Building Committee
- o Re-write notice policy~ More aggressive land uses should notice a more broad spectrum of the affected neighborhood
- o Support Community Development initiative to better communicate with local businesses and 2025 vision to continue to recognize and incent the spirit of “volunteer” within Roseville
- o Take advantage of current geo-thermal technology and expand throughout city hall campus
- o Explore new ways to cut spending through joint ventures with surrounding communities and Minnesota corporations.
- o Re-write gambling ordinance~ Local Charitable Gambling organizations have suffered greatly since the ban on public smoking. Language needs to be changed to allow these groups to do business in more than just one Roseville establishment. Currently they may only do business in 1 Roseville establishment.
- o Evaluate our HD code. Does it have teeth?
